DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are replete with 112 errors, for example what is meant by "a proper area", claim 1, line 2, and "properly elastic foam layer", claim 1, line 3, and in claim 1, line 15, "the movable" should be "the movable knob". The claims are worded very awkwardly, and therefore it is difficult to determine exactly what is being claimed. The claims are also replete with lack of antecedent basis errors. Review and revision of the claims is requested.

Allowable Subject Matter

Claims 1-4 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Panfili et al, Zimmerman, Attinger and Htchins were cited to show other examples of sanders with clip mechanisms.
